ORGANIC CANNED PRUNES

Taylor Brothers Farms organic canned prunes are sized and sorted, and then pitted and double-steamed—which explains why they are so tender—during the canning process. Also described as stewed, cooked, prepared, or ready-to-serve, canned dried plums possess good keeping qualities, and they are easily processed ahead of orders and stored ready for shipment.

Applications

Delicious and ready to serve, Taylor Brothers Farms organic canned prunes make a great addition to buffets and breakfast tables. They also make an excellent mix with yogurt, ice cream, and sorbet.

Basic specs

- Moisture: Approx. 38%
- Size Ranges: size (designated by count) is the number of canned dried plums free of liquid per pound, not the size of the dried plums used in processing. Thus, 30/40 canned dried plums do not come from 30/40 dried plums
- Shelf life/storage: 24 months stable at room temperature
- A broad range of sizes are available, from 16-oz. to the traditional institutional #10 container
- Certifications: USDA, CCOF, Kosher

WORLD LEADER

Taylor Brothers Farms is the world's leading producer and processor of organic prunes. We are a third-generation operation that stands out in today's global market for its commitment to quality and its know-how, responsiveness, and sense of continuity.

WORLD-CLASS PRODUCTS

- Natural Condition Organic Packed Prunes
- Whole Organic Processed Prunes
- Organic Ashlock and Elliot Pitted Prunes
- Organic Diced Prunes
- Organic Prune Powder
- Organic Prune Paste
- Organic Prune Concentrate
