ORGANIC DICED PRUNES

Taylor Brothers Farms organic diced prunes are organic pitted prunes that are cut into ¼” (6.35 mm), mostly cubic-shaped pieces, with some random shapes.

Applications

Organic diced prunes are mainly used to reduce fats—e.g. butter, shortening and oil—in organic baked goods. They help maintain that good, rich, flavor and luxurious feel, while adding sweetness and holding moisture. Organic diced prunes require little or no modification of the formula, and should comprise up to 50% of its total weight.

Diced Prunes go well in:

- Most baked products
- Cereal
- Snack mixes
